4. Other conditions of sale pursuant to Articles 337 to 343 of the ZFPPIPP:

- i. Bidders must include the following details in their written offers (**the recommended offer template is in the attachment**): their name or business name, address and tax number, the object or lot for which they are submitting the offer, their offered price exclusive of any fiscal charges (indicated by number, in EUR), the deadline for payment of the purchase price and proof of payment of the security, and their bank account number for the potential repayment of the security, in accordance with the terms of the tender. The offer must also contain their contact details (telephone or email address).
- ii. Only complete and timely offers will be considered in the selection. Offers lower than the opening price from point 2 will not be considered in the procedure.
- iii. The purchaser cannot be a person with whom the contract shall not be concluded pursuant to the provisions of Article 337 of the ZFPPIPP. The purchaser must, prior to concluding the contract, provide a written statement that no obstacle exists to concluding the contract referred to in paragraph one of Article 337 of the ZFPPIPP.

All data from the list is taken from accounting documentation and inventories, which means that due to the large scope, the actual state of the facts may deviate from the conducted inventory, for which the debtor in bankruptcy is not responsible. Potential purchasers can examine the subjects of public sale before the sale, which is why any complaints relating to unfamiliarity with the objects or deviations will not be considered.
- xi. The purchaser is obligated to transport the subjects of sale at their own expense within 15 days from the receiver's invitation to collect them. If the purchaser fails to transport the subjects of sale, they shall be charged for all storage costs.
